President/CEO
Fire Service Plus, Inc.
180 Etowah Trace
Fayetteville, GA 30214

Dear Ron:

I would like to take this opportunity to express our satisfaction with the excellent firefighting characteristics and the dependability of your company's FireAde 2000. Currently, all of our structural pumpers carry FireAde 2000 to combat Class A/B fires and we're eager to service our Aircraft Rescue Fire Fighting (ARFF) vehicles with FireAde 2000.

Recent testing of FireAde 2000 at our training facilities on a multitude of different classes of fire has shown that your product is everything it's advertised as being and an unbelievable asset for today's fire fighter. Your product has excellent knockdown in initial attacks on hydrocarbon pit fires merely using handlines with outstanding flashback resistance.

This is one fire department that appreciates your hard work and drive to develop a life-saving and environmentally safe product.

Sincerely,

A handwritten signature in black ink, appearing to read "Raymond J. Xuereb".

Raymond J. Xuereb
Assistant Fire Chief
