Chemical Risk Management

December 3, 2001

Dear Ron Thames:

We appreciate the information in your Material Safety Data Sheet (MSDS) that you provided for your product Fire Ade 2000. This information has been entered into the GM Corporate MSDS database and assigned the FID Number 350441.

The FID is unique to this product. It is used in databases throughout General Motors and will remain with this product.

Please feel free to contact me if you have any questions on this or any related subject.

Sincerely,

Donald J. Hart
