

# FireAde<sup>2000</sup>® CLASS A

## Green Agent Technology™

Background image has no chemical representation of FireAde® products.

Environmentally formulated FireAde® 2000 Class A foam is the newest generation in Class A foam. Using Green Agent Technology™, environmentally friendly formula prevents environmental hazards and demonstrates our long term commitment to the environment. The foam agent is formulated to prevent additional environmental hazards when applied to a fire. The ability of FireAde® 2000 Class A foam to not only extinguish but sustain extinguishment once applied is superior to other Class A foams. It contains ZERO hazardous materials in the formulation; it will not clog, gum, or corrode foam systems and equipment. This environmentally friendly concentrate implements a dramatically changed chemistry compared to most Class A foams. This chemistry enables FireAde® 2000 Class A foam to be used in all types of foam portioning systems, compressed air foam systems (CAFS), in-line eductors, and standard foam equipment.

- ▶ **Environmentally Formulated**
- ▶ **98% Organic Compounds**
- ▶ **Contains no PFOA or PFOS**
- ▶ **Zero Hazardous Chemicals**
- ▶ **Encompasses Water Based and Food Grade Ingredients**
- ▶ **Biodegradable**
- ▶ **Contains no ingredients reportable under the Superfund amendments and Reauthorization Act (SARA) Title III, Section 313 of 40 CFR-372 or Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).**

## Specifications

### Applications

Grass fires and Initial Structural Knockdown:  
0.10% - 0.25%

Tire Fires, Landfill Fires, Coal Fires and Wildland Fires:  
0.25% - 0.50%

Car/Vehicle Fires and Overhaul:  
0.50% - 1.0%

Recommended to set foam system defaults between 0.25% and no more than 0.50%

Compressed Air Foam Systems (CAFS) should be calibrated using a foaming solution under 50 cps for accurate calibration

### Flushing Instructions

It is recommended to flush all Class A foam tanks if possible. If not, use as much of previous Class A foam, then add FireAde® 2000 concentrate. Mixing with most Class A foams will not cause harm to systems.

### Compatibility

FireAde® 2000 Class A is compatible with other brands of Class A foam concentrates.

FireAde® 2000 Class A is compatible with any Class B FireAde® 2000 concentrates.

### Physical Properties

**Appearance:** Natural/ Clear

**PH:** 7.5-8.5

**Viscosity:** 6.2cps

**Min. Storage Temp.:**  
35°F (2°C)

**Max Storage Temp.:**  
120°F (49°C)

**Effects of Freeze/Thaw:**  
None

### Shelf-Life

FireAde® 2000 Class A Foam has an **unlimited** shelf-life.

### Shipping Information

FireAde® 2000 Class A Foam concentrate is available in pails, drums, totes, and bulk shipments.
