

# FireAde<sup>2000</sup> MIL-SPEC 6

## Green Agent Technology™

Background image has no chemical representation of FireAde® products.

Environmentally formulated FireAde® 2000 MIL-SPEC 6 is the newest generation in military specification foams. Using Green Agent Technology™, environmentally friendly formula prevents environmental hazards and demonstrates our long term commitment to the environment. This foam agent is formulated to prevent additional environmental hazards when applied to a fire; the first to eliminate PFOA and PROS within military specification's MIL-F-24385F, listed on QPL-24385. The capacity of FireAde® 2000 MIL-SPEC 6 to produce a stable, heat resistant and self-sealing blanket provides superior performance to traditional MIL-SPEC 6 foams. FireAde® 2000 MIL-SPEC 6 may be used in all types of foam portioning systems, in-line eductors, and standard foam equipment without adverse effects.

- ▶ **Environmentally Formulated**
- ▶ **98% Organic Compounds**
- ▶ **Contains no PFOA or PFOS**
- ▶ **Zero Hazardous Chemicals**
- ▶ **Encompasses Water Based and Food Grade Ingredients**
- ▶ **Biodegradable**
- ▶ **Contains no ingredients reportable under the Superfund amendments and Reauthorization Act (SARA) Title III, Section 313 of 40 CFR-372 or Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).**

## Specifications
